Delivering Quality Since 1986

With over 30 years of providing high quality bathroom products, excellent customer service and next day delivery to 95 percent of our customers, it's no wonder we have built a reputation as one of the UK's leading bathroom distributors. Browse through our catalogue to find products that fit your personal style and budget.

Throughout this edition of our brochure, you will have access to over 5000 products, and Q4's team of advisors will be ready to answer any questions that you may have.

Q4's customer service team

Putting customers first

Ensuring our customers are receiving the best customer service possible is at the forefront of our team, we look after them from the first point of interaction, all the way through the ordering, delivery and aftercare process.

“

We think of Q4 Bathrooms very highly within our organisation, due to the quality of service and products they provide. The quality is second to none and the vast range of products benefits an extremely high percentage of our customers – due to this, they are the only bathroom supplier we use.

”

Kevin A Scott, EHS Solutions

Q4's own vehicle fleet

Triple checked order process

Quality Service

We've gained our enviable reputation with our trade customers through not only offering a huge range of great value, quality products, but also through understanding their needs and focusing our service around them. You'll find these unique qualities of service highlighted throughout the catalogue, but here are just a handful that demonstrate our commitment to delivering the very best service.

Order Before 5pm for Next Day Delivery

We understand that bathroom traders need to place orders when it's most convenient. By extending our order cut off point to 5pm we are still able to deliver the next day.

Central UK Base. Accessing Locations Within 24hours

Located on the outskirts of Wetherby, between Leeds and York, our central UK location and close proximity to major roadways ensures our orders get to our customers, fast.

Orders Triple Checked Before Distribution

To ensure traders receive their bathrooms exactly as they've ordered them, we check, and recheck every order picked.

Hand Delivered by Q4's Own Vehicle Fleet

We employ our very own fleet of vehicles and Q4 delivery drivers to ensure we are able to guarantee the very best, reliable delivery service.

Completed Delivery Rating of 99%

Our 'triple check' policy means that our logistics team consistently achieve completed order ratings of 99%.

First Class After Care Service

Our focus on our customers doesn't end when their order has been received and paid for. The value we place on our customers is reflected in our highly praised after care service.

Quality Products

Our focus in creating and selecting the thousands of products you'll find in this catalogue is always on quality; but at great value. You can visit our brand spotlight pages for a direct route to the product brands below.

Great British Quality

The majority of our products are made in Britain

At Q4, not only do we create our own product ranges here in Britain, but we also consciously choose to work with British manufacturers. We believe products 'Made in Britain' guarantee high quality at great value and have the added advantage of having a lower environmental impact through efficient, regulated production processes and decreased import transportation.

- **High quality at great value**
- **Lower environmental impact**
- **Easily available spares**
- **Supporting British manufacturing**

And the rest...

We are highly selective in choosing our suppliers. All products sourced or manufactured outside of Britain are chosen based on either the reputation and authority of their brands or by passing Q4's rigorous quality testing.

All our non-British manufacturers & brands have British based operations so we have readily available spare parts for all our products and the benefit of British based engineers.

- **The world's most respected brands**
- **Rigorously quality tested by Q4**
- **Easily available spares**
- **British based engineers and technical support**

Our 10 years exclusive warranty on all our products

Our minimum 10-year guarantee shows we're confident to put our name to our entire range, and committed to great customer service.

Seamlessly stylish

Lussolite's unique material qualities allow us to create shapes and curves, as well as sharper edges to designs, which go beyond the manufacturing capacity of traditional materials like granite worktops and vitreous china used in the manufacturing of washbasins. The result is a stand out stylish basin and worktop, seamlessly blending to create a unique and sophisticated look to your bathroom.

ZANETI®

Sleek and elegant in design, our Italian inspired Zaneti range offers a timeless, yet contemporary, sophisticated look for your bathroom.

The Zaneti range of furniture offers several different evolutions of design, each appealing to different design tastes.

The Zaneti range exudes quality, from superior design and styling, through to luxurious functional solutions such as soft close doors and drawers.

Six elegant design ranges from Zaneti

Zaneti Series - The Zaneti Series range represents some of our best selling furniture solutions. The Series features a number of practical but stunning storage solutions, with a selection of 7 handles styles including an exquisite minimal lip handle. Page 14.

Zaneti Aspect - The latest addition to Zaneti, our best selling furniture solution with a handleless design. New door finishes including Jackson Pine & White Levanto Marble. Page 46.

Zaneti Kolour - Kolour is the new vibrant addition to Zaneti range for 2021, available in a range of 5 soft pastel pallet finishes featuring Ocean Blue, Misty Pink, Fjord Green. Page 82.

Zaneti Architect - Architect includes a brand new beautifully sculptured ceramic basin and is available in 3 unit sizes, complimented by a generous tall unit for additional storage. Colours feature matt finish white, light grey and mid grey, finished off with our exclusive Architect handle in matt black and polished chrome options. Page 90.

Zaneti Senza - One of the newer additions to Zaneti, a handleless design, Senza has a minimalist simplicity that is both sensual and sophisticated. Page 64.

Zaneti Natura - Natura is another new addition to the Zaneti range. Its handleless design mirrors that of Zaneti Senza but it is chunkier and more robust in styling. Page 78.

Gloss Mid Grey

ZANETTI® Series

A contemporary colour choice with gloss finish, Gloss Mid Grey sets a modern tone with the versatility to suit most bathrooms.

Shown with 160mm Slim Square Handles.

Gloss Mid Grey is one of the newer colours in the Zaneti range. Combining the darker grey with gloss finish creates a sleek sophisticated designer look.

400 Cloaks Unit, Shown with 192mm Boss Handle.

Modular with a wide range of options

The Zaneti series offer a wide range of units catering for multiple applications including cloakroom, en-suite and bathroom. Whether you're looking for a basin, column or WC unit, Zaneti can offer you the stylish storage you need to bring your bathroom to life.

Care and Warranty
All bathroom furniture requires adequate room ventilation to prevent moisture build up and subsequent product failure. Please consult your installers to ensure your room is fitted with adequate extraction fans to remove moisture generated from showers and hot water.

Urban Grey

ZANETTI® Series

This dark wood matt finish with a Scandinavian feel creates a natural look while retaining a contemporary style.

Shown with 192mm Boss Handles.

Urban Grey's wooden texture and dark shading create a luxurious look that is strong and sophisticated, creating a mood that is unique to this finish.

600 Wall Hung Unit with the Thick Edged Basin.

A Variety of sizes and finishes

Series basin units come in three width sizes, 500, 600mm and 800mm, with drawers already built in. The entire range is made up of; 1500mm column units, 500mm, 600mm or 800mm wall hung or floor mounted basin units, cloakroom basin units, back to wall WC units and basin & WC combination units for use with our solid surface one piece top. All available in either a gloss finish; Gloss White, Gloss Light Grey and Gloss Mid Grey. A wood effect finish; Urban Grey and Driftwood, and finally, in Matt finishes Concrete and Mid Grey.

Care and Warranty
All bathroom furniture requires adequate room ventilation to prevent moisture build up and subsequent product failure. Please consult your installers to ensure your room is fitted with adequate extraction fans to remove moisture generated from showers and hot water.

Driftwood

ZANETTI® Series

This light wood matt finish with a Scandinavian feel creates a natural look while retaining a contemporary style.

Shown with 192mm Boss Handles

Driftwood's light shading and wooden texture create a luxurious look that is strong but calming. The lighter wooden shade keeps things natural but helps create contrast.

800 Wall Hung, Shown with 537mm Boss Handles and 1500 Column Unit

Easy Installation

Being mainly free-standing units, the Zaneti range are characteristically easy to install. We've made things even easier by ensuring wall units have adjustable wall hangers and WC units have removable front panels for access.

Care and Warranty

All bathroom furniture requires adequate room ventilation to prevent moisture build up and subsequent product failure. Please consult your installers to ensure your room is fitted with adequate extraction fans to remove moisture generated from showers and hot water.

KEY FEATURES:

- Supplied Rigid.
- Soft Close Doors.
- Soft Close Drawers.
- Easy Fix Brackets.

Halifax Oak,
See page 80

This oak wood texture creates a homely traditional look that suits light bathrooms.

One of the more traditional Zaneti door finishes, Oak's wood grain finish and warm tone exudes comfort, while maintaining a classic look.

Matt Mid Grey

ELEMENTS Select

Warm both in hue and matt finish, Matt Mid Grey is a stylish choice to create a light but soft bathroom.

Mid Grey's matt finish and natural warm tone offer a very unique design choice for the discerning customer, creating a stylish bathroom you can't fail to relax in.

About this design configuration

The Matt Mid Grey finish represents great interior design and brings a modern but relaxing ambience to your bathroom. Keeping the overall look fresh with light colours, White Worktop and Grey Carcass ensures this piece of bathroom furniture stands out against dark colours. Bringing the dark colours into the piece of furniture itself with our Slim Square Handle softens the contrast of colour tones and completes the overall look.

Beluga

ELEMENTS Select

This light oak colour and wood grain texture offers a bright modern look for those wanting a natural wooden finish to their bathroom.

Beluga's light oak shading and wooden texture create a luxurious look that is strong but calming. The lighter wooden shade keeps things natural but helps create contrast.

About this design configuration

The Beluga Oak finish offers high quality bathroom furniture that adds a stylish and practical touch to the room. Complimented with a modern Grey Carcass finish and the Block D Handle, this combination pulls together modern and traditional in one sleek piece. Adding the White Worktop has drawn a hint of light to the overall look, but this would also work well with any of our solid surface worktops.

Gloss Light Grey

ELEMENTS Select

A striking high gloss light finish to make a bold and clean statement bathroom.

Gloss Light Grey is an ideal choice for those looking for a light scheme with a sleek and contemporary finish to their bathroom furniture.

About this design configuration

Gloss Light Grey is one of the most striking colours within the Elements collection, it works well in a naturally light bathroom or under artificial lighting. To enhance the overall light feel we have added a White Gloss Worktop, but this versatile colour would also work well against darker details. To compliment this colour from the inside, we've added the Grey Carcass finish.

Lussolite®

Solid Surface Solutions

Q4's New Lussolite Solid Surface Solution introduces the latest in bathroom surface technology to our customers.

Combining powdered 500 million year old dolomitic marble with high-grade polymer resin, Lussolite solid-surface basin tops not only exude elegance through the seamless integration of work top and basin but are also super-strong and extremely resistant to scratches and staining.

500 MILLION
YEAR OLD
DOLOMITIC MARBLE

Seamlessly stylish

Lussolite's unique material qualities allow us to create shapes and curves, as well as sharper edges to designs, which go beyond the manufacturing capacity of traditional materials like granite worktops and vitreous china used in the manufacturing of washbasins. The result is a stand out stylish basin and worktop, seamlessly blending to create a unique and sophisticated look to your bathroom.

Practically perfect

Lussolite Solid Surface Worktops are made using KRION™ which is a new generation solid surface, composed of 2/3 natural mineral and 1/3 latest-generation acrylic resins. Lussolite Worktops have a warm and soft touch, which is solid, uniform throughout its entire thickness, and non-porous. Lussolite worktops are a hygienic and non-toxic product that is virtually fireproof, it is anti-bacterial without the need for any type of additive, it is tough, resistant, durable, easy to repair and only requires minimum maintenance and is easy to clean.

EASY CLEAN

Any normal stain, superficial burn, graffiti or marker pen stain can be removed, immediately returning the surface to its original appearance by following the recommended cleaning instructions

ULTRA WHITE

KRION™ offers a degree of whiteness over 99.8%, which in combination with its high refraction index provides a pure, brilliant white that is unique among existing solid surfaces.

ECOLOGICAL

KRION™ is an eco-friendly material, being made up of two thirds natural minerals. Other aspects which make it an environmentally friendly material are that it does not emit volatile organic compounds, and is easy to repair as it can be restored to its original appearance. This reduces the need for replacement, thereby complying with the durability requirements outlined in international environmental guidelines.

HYGIENIC

Resistant to germs & bacteria. Does not allow the proliferation of germs and bacteria. KRION™ does not allow bacteria or fungi to grow or spread. This is an intrinsic property of the composition of the material, without the need for additives to achieve this permanent effect.

NATURAL

This material is made of two-thirds natural minerals (ATH – aluminium trihydride) and a low percentage of high-resistance resins.

Halifax Oak

ELEMENTS Vanguard

This oak wood texture creates a homely traditional look that suits light bathrooms.

One of the more traditional door finishes by Elements Halifax Oak. The wood grain finish and warm tone exudes comfort, while maintaining a classic look.

About this design configuration

The Halifax Oak finish offers high quality bathroom furniture that adds a stylish and practical touch to the room. Complimented with a modern White Carcass finish and the Silver Handle Trim, this combination pulls together modern and traditional in one sleek piece. Adding the White Gloss Worktop has drawn a hint of light to the overall look, but this would also work well with any of our solid surface worktops.

Toilet Guide

Use this quick reference guide to help choose the right style of toilet to match your soil pipe fitting options.

Close Coupled / Open Back

The most common type of toilet sold in the UK, the Close Coupled / Open Back is a floor standing toilet where the cistern is fitted to the back of the pan.

The cistern comes with Dual flush activation and the open back pan is designed to allow for soil pipes that come out at a right angle to the left or right. It is also suitable for soil pipes that go straight out through the wall or into the floor (space depending).

Soil pipe position options

Left	Right	Wall	Floor
●	●	●	●

See from page 180.

Close Coupled / Flush Fit

Like the Close Coupled / Open Back this is a floor standing toilet where the cistern is fitted to the back of the pan. With Dual flush activation, the pan fits flush against the wall concealing any pipe work leaving a tidier finish. This does however mean that the toilet can only be fitted with the soil pipe going straight out through the wall or into the floor (space depending).

Soil pipe position options

Left	Right	Wall	Floor
		●	●

See from page 184.

Close Coupled / Extra Height

Again the Extra Height Close Coupled toilet is floor standing and the cistern is fitted to the back of the pan with Dual Flush activation. These toilets benefit from a higher seating position than a normal toilet, aiding less abled individuals and making them more comfortable for taller users.

Check each individual toilet depending on flush or normal fit.

See from page 186.

Back to Wall

The back to wall pan is floor mounted, designed to fit flush against furniture and be used with a concealed cistern that is situated in the furniture. The toilet can also be fitted against a wall if fitting the concealed cistern inside the wall is a possibility. Soil pipes can be sent left or right and straight out of the wall if installing furniture which will hide the pipework.

See from page 188.

Back to Wall / Extra Height

Like the Back to wall pan, this is floor standing toilet, designed to fit flush against a furniture unit with a concealed cistern. The Again the toilet can be fitted against a wall if fitting the concealed cistern inside the wall is a possibility. These toilets benefit from a higher seating position than a normal toilet, aiding less abled individuals and making them more comfortable for taller users. Soil pipes can be sent left or right and straight out of the wall if installing furniture which will hide the pipework.

●	●	●	

See from page 194.

Wall Hung

The wall hung pan is designed to fit on a Wall Hung Frame system which allows the toilet to sit clear of the floor. To fit a wall hung pan you need to be able to fit a frame system inside your wall cavity or box out to allow for the frame. The frame usually comes with a cistern and flush plate and an option of soil pipe connector meaning you have flexibility on where your waste pipe goes.

carron

In 1759, the original Carron Company formed the now famous ironworks on the banks of the River Carron. The company rode the wave of the Industrial Revolution and was famed for their short-barrelled naval cannons, Carronades, used by the Royal Navy up until the 1850's.

The name for baths

As times changed the Carron Company moved into the production of everyday products and before long, the Carron Company began to manufacture sinks and baths but as the market changed and the original Carron Company came to a close, Carron Bathrooms was formed.

Since then, we have been at the forefront of modern bath design and can be relied on to produce baths with skill and precision, never losing sight of what makes our baths great, craftsmanship.

Hand crafted process

All our baths go through an eight-stage process before leaving the factory floor. From moulding to packaging, every stage is monitored and finished by hand. This leaves us so confident in our products that we offer a minimum 20-year guarantee on every Carron bath.

Carron's unique triple-layer reinforcement system

The  **carronite**[™] experience

Carronite[™] was created by Carron Bathrooms to provide a higher level of comfort, luxury and peace of mind for our customers.

All Carron Bathrooms baths are hand finished to our exacting standards but only Carronite[™] baths, with our unique, patented, triple-layer reinforcement system come with a 30 year guarantee - proof of the confidence we have in Carronite[™].

How does it work

Carronite[™] baths are stronger and heavier than standard acrylic baths. The additional finishing layers crafted during the Carronite[™] process create a uniquely reinforced product. The added weight requires a bespoke fitting system that only adds to the stability and rigid feel of our Carronite[™] baths. These elements combined help deliver the Carronite[™] experience.

- ① **THE FINISH:** Specially formulated, our unique Carronite[™] finish results in increased rigidity while the density of the material allows greater heat retaining properties.
- ② **THE FRAME:** Created specifically for the Carronite[™] Baseboard, this unique frame, and foot set uses the added weight and thickness of our baths to deliver additional stability and security.
- ③ **THE BASEBOARD:** Custom baseboards, cut to size for each Carronite[™] model, are applied by hand before the Carronite[™] finish is applied.

Carron's whirlpool bath system

c-lenda

Hand fitted to your specification in our factory, adding a C-Lenda® Whirlpool system to your Carron Carronite bath is the last word in luxury.

The C-Lenda Whirlpool system is the most technologically advanced system available on today's market. This unique jet system ensures the most comfortable bathing experience. Almost all baths in the Carron range are compatible with this whirlpool system.

FREE carronite upgrade

When you add a **c-lenda** whirlpool system to a carron bath.

carronite™

The lowest profile jet system in the world

Technology

Every aspect of C-Lenda technology has been designed with the bather in mind. From the smooth, easily adjustable controls, the invigorating jet massage performance through to the super safe suction system, you can be assured you will get the comfort, style, performance and protection you deserve from C-Lenda.

The intelligence of the C-Lenda flush jet system lies within the patented mounting flange. Manufactured from high grade stainless steel this unique patented load transfer device ensures the fittings are securely mounted to eliminate cracking and peeling, which pro- longs the quality and beauty of your C-Lenda flush jet system.

Hydrotherapy

C-Lenda's whirlpool system delivers a rich hydrotherapeutic experience. The consistent pressure of the warm water against the skin encourages blood vessels and capillaries to open, enabling a higher volume of oxygen-rich blood to the extremities. The heat transfer also has a sedative effect on the nerve endings, reducing muscular pain and discomfort.

The massaging effect of the jets reduces oedema (fluid swelling) around the joints. They also stimulate the nerve ending receptors, distracting the pain-carrying nerves from passing their pain-inflicting messages to the brain. Endorphins are then released leaving the body in a state of well-being.

Warmup

Tempo Thermostat

With the Tempo you can simply program your settings to suit your requirements and it will help avoid wasting energy and achieve savings on your utility bills.

Its proportional adaptive functions ensure the room does not over heat, reducing waste energy whilst also protecting the elements inside. The early start algorithm learns how long it takes to warm the room and activates the heatings so it's up to temperature at the right time.

The Benefit of Marine Plywood

Marine plywood is primarily used in numerous marine applications, boat-building being the most crucial one. Constructed out of the finest grade of wood, this plywood is known to have an abundance of advantages over the other types available in the market. The major difference between marine plywood and standard plywood is that the former consists of a binder meant for water submersion. Marine plywood has twice as many layers compared to the other types.

Water Resistant

One of the greatest advantages of marine plywood is its water resistance property. While there are various other types of water-resistant plywood variants available, most of them fail to rightly handle wet conditions. Generally, water enters the core of wood which results in the plywood to expand. This causes the wood to rot. However, if you opt for marine plywood, such situations will never arise, as it consists of a special glue layer meant to prevent moisture from settling on the surface.
